EDUCATION

Columbia University
MS Computer Science, Data Systems
2015 – 2017
Boston University
BS Computer Engineering
2008 – 2012 · GPA 3.7/4.0

CERTIFICATIONS

Databricks Certified Data Engineer Professional
Databricks, 2023
AWS Certified Data Analytics – Specialty
Amazon, 2021

SUMMARY

Data engineering lead with eleven years building batch and streaming platforms in finance and healthcare. Manages a team of eight; still writes the hard parts.

EXPERIENCE

Data Engineering Lead

Meridian Health · New York, NY · Sep 2020 – Present

- Lead a team of eight engineers building the clinical data platform on Spark and Delta Lake.
- Designed the streaming ingestion layer handling two billion events a day with exactly-once semantics.
- Brought the platform through HIPAA and SOC 2 audits with no findings.
- Established the data contract programme that cut downstream breakages by seventy percent.

Senior Data Engineer

Argent Capital · New York, NY · Jan 2017 – Aug 2020

- Built the market data lake on S3 and Athena, replacing a vendor system at a fifth of the cost.
- Wrote the Airflow framework used by forty pipelines across the firm.
- Mentored four junior engineers, two of whom were promoted to senior.

Data Engineer

Cobalt Analytics · Boston, MA · Jun 2014 – Dec 2016

- Migrated nightly ETL from stored procedures to Spark, cutting the batch window from nine hours to two.
- Introduced schema versioning for the warehouse.

Software Engineer

Beacon Software · Boston, MA · Jul 2012 – May 2014

- Developed reporting features for a SaaS analytics product in Java.

PROJECTS

deltacheck (Python, Spark) github.com/evasquez/deltacheck
Schema drift detection for Delta Lake tables with Slack alerts.

pipeline-lint (Python)

Static checks for Airflow DAGs: cycles, missing retries, unbounded parallelism.
